

ALESSI BIBLIOTECA

Architects: Venturi, Scott Brown and Associates, Inc.

Location: Lake Orta, Italy

Client: Dr. Alberto Alessi Anghini

Completion: 1988

This interior project is a new lining within an existing rustic 200 year old agricultural building of great quality characteristic of its locale.

The client requested a domestic library with Empire-style references consisting of two stories. The references are abstracted, stylized, representational, and generous in scale.

The project also involved furniture installation.
