BETWEEN CITIES AND SYMBOLS, FAARM GALLERY

Architects: Venturi, Scott Brown and Associates, Inc.

Location: Philadelphia, PA

Client: FAARM

Completion: 2000

In May 2000, VSBA and FAARM (the Centre for the Cultivation of Art and Architecture in Philadelphia's Old City) presented *Between Cities and Symbols*, an exhibition of the firm's recent work at home and abroad. Buildings and projects were illustrated in digitally-printed murals, complemented by large-scale graphics, written aphorisms, and comments on the state of architecture and its relationship to American culture.

We featured the Mielparque Nikko Kirifuri Resort project located in Japan's Kirifuri National Park, and the Hôtel du Département de la Haute-Garonne in Toulouse, France. In addition, the show illustrated a number of our Philadelphia-area projects, including campus complexes for the University of Pennsylvania and Princeton and unbuilt designs for the Philadelphia Orchestra Hall and Independence Mall.
