

HOUSE IN PITTSBURGH, PENNSYLVANIA

Architects: Venturi, Scott Brown and Associates, Inc.

Location: Pittsburgh, PA

Completion: 1979

This is a small house for a compact, sloping, wooded site that you come upon suddenly and don't ever see from a distance.

It's a small building whose explicit surface ornament helps to give it a big scale, making of it a house *and* a pavilion. At the time, its ornamental elements and expressionistic form were considered unusual.
